Yukon Won Balto Trophy

Struck with the fine qualities of determination, courage and endurance displayed by the veteran Balto, who battled his way in record time at the head of twelve other dogs driven by Gussie Kenson against most adverse conditions into Nome, Alaska, with diphtheria anti-toxin, Mrs. Frank Clarke of Sheepshead Bay, N.Y., offered an antique silver plate as a trophy to be awarded to the best husky in the winning team in the Eastern International Dog Sled Derby. The trophy was awarded to Yukon, the leading dog in the Manitoba team driven to victory at Quebec by St. Godard under the Franquelin Paper Company colors and will be held in perpetuity by its owner. Mrs. Clarke intends to offer a similar trophy each year.

MAGAZINES, PAPERS AND CONFECTIONERY

Remarkable absence of timidity is being shown by wild animals in the neighborhood of Banff, Alberta, it is reported, as a result of kindly treatment. Heavy snows recently brought elk and deer into the main part of the town, where a parade by these animals is not an uncommon sight. They make the rounds of the houses, looking for tit-bits, which are not denied them. One big elk, with a magnificent set of antlers, is as regular on his schedule of calls as the milkman.

The most recent addition to the Canadian Pacific Railway's British Columbia fleet of 28 passenger ships, freighters, barges, ferries and tugs is the British Admiralty Rescue type tug, "St. Florence," which will leave Glasgow at an early date to make the 8,500 mile journey to Victoria under her own steam via the Panama Canal. She will be one of the largest towing tugs in Pacific coast waters and is capable of towing the biggest liners making use of ports in that ocean.

M. D. of Golden Centre

The first meeting of Council of the M. D. of Golden Centre No. 272 was held on Friday March 6.

The representatives of the Municipal Districts in the Hail Insurance district, were requested to appeal for an amendment to the Municipal Hail Insurance Act, whereby all Hail Insurance Taxes must be paid before new application will be accepted.

No action was taken, re purchase of Gopher Poison.

Secretary read Financial Statement to date.

Following accounts were paid: Union Bank, vault rental for books, 10.00; Ralph Greene, office expense, 10.00; salary, January, February, 250.00; L. C. Michaels, rent March 6, 8.33; Golden Centre S.D., rent Feb. 21, 5.00; S. A. Miller, groceries for A. L. Childers, 8.90; Dr. J. Esler, Hospital fee against W. T. Romhr; 193.00.

At the hour of 2 p.m. the new council was organized as follows: Ed. Stewart, Reeve, Frank Barker, Deputy Reeve, Treasurer, at a salary of \$1500 per annum.

Municipal Office to be located at Cereal and \$10.00 per month to be allowed for office expense.

Council meetings to be held at N.E. 13 30 5 4 on first Wednesday of each month at 10:30 a.m. at a rental of \$5.00 for each meeting.

The Reeve or Deputy Reeve and Secretary-Treasurer were empowered to sign all cheques, notes, etc., and the Secretary-Treasurer to endorse all cheques, drafts, etc., for deposit.

The Reeve or Deputy Reeve and Secretary-Treasurer were empowered to forward all collections of taxes which have been levied for the Province.

Hail Insurance Board and School Districts.

Council adjourned until Wednesday, April 1, 1925.

Interim Payment to Wheat Pool Members

An interim payment of 35 cents a bushel to members of the Alberta Wheat Pool was made during the past week. This payment is made on interim coupons that have been surrendered to the pool and checked against deliveries. The payment involves the mailing of over 30,000 cheques. On March 10 the initial payment will be increased to \$1.35 per bushel, basis No. 1 Northern Vancouver.

British Boys Starting on Farms

The 70 or more British boys brought out under the plan of Hon. Geo. Hoadley for training in farm work at the Vermilion School of Agriculture, will conclude their training at the end of March and will go on farms shortly afterwards. Many of the young men have already been provided for in this respect.

Raymond to Celebrate

The citizens of Raymond are planning to hold a celebration on March 11, to mark the establishment of the new million dollar sugar factory to be built there by the Utah Idaho Sugar Company.

Provincial Seed Plant.

The Provincial Government Seed Cleaning and Grading Plant operated by the Provincial Department of Agriculture and the Alberta Seed Growers Association has handled to date for the present season a total of over 51,000 bushels of registered seed grain. Alberta farmers desiring to secure some of this seed should apply at once to W. J. Stepien, Field Crops Commissioner, Department of Agriculture, Edmonton.

FRIDAY AND SATURDAY, NEXT WEEK

SAYS FARMERS WILL PROFIT BY THE WHEAT POOL

Toronto.—The establishment of a Canadian national economic council for the discussion of problems common to the entire Dominion with a view to shaping an economic policy fair to all provinces, was the suggestion offered by George Edwards, president of the Saskatchewan Grain Growers' Association, in an address here, when the members of the Canadian Council of Agriculture were the guests of the Canadian Manufacturers' Association at dinner.

The west, said Mr. Edwards, was doing its best to solve the problem presented by the present difficult times. The western farmer had awakened to the fact that he was not a manufacturer to throw his product on the market without regard to price or cost of production, and as a result 60 per cent. of the grain grown here had organized for co-operative marketing purposes.

The Saskatchewan wheat pool, he would at least secure for its members the average price of the season, and he estimated that in view of the present high price of wheat it would result in a saving of between \$20,000,000 and \$30,000,000 to the Saskatchewan farmers this year.

A cordial welcome to the guests was extended by the chairman, T. A. Bassett, of the Canadian Manufacturers' Association, who pointed out that the two organizations had many members, the members of both being engaged in basic industries of Canada.

Alberta Will Repeat Display At Wembley

Government Is Undecided Whether They Will Send Representative
Edmonton.—Alberta will be represented at Wembley again this year, it was announced by Premier Greenfield. The exhibition made by the province last year, as part of the all-Canadian display, will be repeated but probably will have some changes in addition made to it, to bring it more fully up to date. It has not yet been decided, however, whether a government representative will be sent with it, as was done last year, for either present or future time, the exhibition is open.

In addition to the Wembley exhibit, there will be a provincial exhibit this year at the national exposition in Toronto, where space has already been selected and assigned for a display of Alberta's resources of farms, mines and forests.

Prospector Has Narrow Escape

Injured in Fall Down Shaft, Unconscious For Eight Days
Dawson, Y.T.—Fred Foss, 60, a prospector, fell down a 30-foot shaft on Gold Creek on February 20, and, though badly injured, managed to climb to the surface and crawl to his cabin. Foss lay for eight days unattended and unable to help himself. He ran out of food and wood for fuel, and was close to death when his plight was discovered. He is expected to recover.

No One Wants Job

London.—Although Great Britain is paying a debt of 15 shillings a week to thousands of unemployed men, railway officials have been unable for four months to find a man who would take a job as porter in a station at 30 shillings a week.

Fewer Graves in Berlin

Berlin.—Burials in Berlin decreased in 1921 to 26 for every 1,000 of population, as against 42.5 in 1920. Efforts are being made to get at the cause of this decline in an effort further to reduce the number.

First Jet Air Mail

Osaka, Japan.—Japan's first air mail service will be started soon between the cities of Osaka, Oita and Fukuoka. Passengers also may carry mail. The first mail will be carried for 40 cents (about 6 cents in Canadian money).

BOILS

BOILS will spread if unchecked. Minard's disinfectant, kills the bacteria, relieves pain and heals.

Prince Albert Claims Crow's Nest Rates

Prince Albert.—The Prince Albert board of trade is demanding that the Crow's Nest Pass agreement be made applicable on freight to this city, basing its claim on the fact that the present Regina-Prince Albert branch of the C.N.R. was operated under lease by the C.P.R. at the time the Crow's Nest Pass agreement was made. The board considers that Prince Albert has equal claims as Saskatoon, which is on the same line, to the privileges of the agreement, and is demanding that the discrimination at present existing against Prince Albert be removed.

Seeking Better Freight Rates

Northern Alberta Relying on Sir Henry Thornton's Promise
Edmonton.—Sir Henry Thornton's promise, given at a meeting in this city last August, that discrimination under the Crow's Nest Pass agreement would not be allowed to continue, is a peg on which the board of trade is hanging its hopes for some adjustment of railway freight rates more equitably to Edmonton and Northern Alberta.

In a wire sent to Sir Henry, following the Vancouver conference, J. Woods, K.C., and the board of trade's special Crow's Nest rate, the Canadian National Railway's president is reminded of his promise, which he has pressed at the same time that the terms of said promise may be carried out at an early date.

Marvels of Science

Photographs of U.S. Presidential Inauguration Ceremony Transmitted
San Francisco.—Photographs taken in Washington of the presidential inauguration ceremony, were received in this city within a few minutes by the Pacific Telephone and Telegraph Company.

The newest electrical marvel produced the first negative that was as clear and perfect as when it came from the camera, and was transmitted over 2,000 miles of wire.

They appeared in early editions of the "Victrola" magazine, new newspaper. Fifty minutes was the average time elapsing between the making of each photo and its transmission in San Francisco.

Empire Exhibition Has An Overdraft

\$1,750,000 Is Largely Covered By Government Guarantee
London.—The British Empire Exhibition has an overdraft at Lloyd's Bank of \$1,750,000. Lloyd's Bank last season enjoyed a monopoly of the banking facilities in the exhibition grounds. When last year, it was willing to forego this privilege if other banks will share the financial responsibility of the exhibition.

In the present year, however, it is largely covered by the government guarantee of the exhibition which is \$1,750,000. The bank has agreed to allow an increase in the overdraft up to a total of \$2,250,000.

Embassy in Turkey

London.—The British government has decided to raise its present mission to Turkey to the status of an embassy. Negotiations, carried on between the Turkish representatives in London and Atton Chamberlain, secretary for foreign affairs, were concluded and it is expected official announcement of the elevation of the mission will be made in the next few days.

Will Exploit British Goods

London.—A company is being formed with a capital of \$500,000, to exploit the exhibition for the sale of model dresses made from English and Scotch dress fabrics. The models will be sold to wholesale houses and particularly supplied of the firms who made them so that wholesalers may then sell to the retail trade.

Adopt Masculine Attire

London.—British women now are wearing men's high white collars, stiff-fronted shirts and white waistcoats with a bow tie. The newest fashion novelty is a dress of glass beads with a small electric light as a pendant, which makes the beads sparkle at night.

Explosion in German Factory

Reimsdorf, Saxony.—Five persons were killed and 18 others injured in a dynamite explosion, following a fire in the powder division of the Westphalia-Anhalt Explosive Factory here. The force of the blast was so strong that the roofs of surrounding buildings were torn off.

Too Much Overhead

Robt. Forke Speaks of Difficulties Under Which Canada Is Laboring

Montreal.—Canadians were living in a house that was too big for them, which they had furnished too comfortably with railways, canal, and other facilities for which they were now not able to pay the rent, said Robert Forke, M.P., leader of the Progressive Party, in an address here. This country, he said, had possessed great natural resources, but these were not of much immediate value as long as they were undeveloped.

There were great geographical difficulties, he said, notably the 1,000 miles of unimproved land between North Bay and Winnipeg, which, more than anything, was responsible for the existence of a definite east and west, but sectionalism must be killed, and people must think in terms of Canada, must accept a spirit of compromise and of give and take, if Canada is to proceed to its proper place, he said.

PLAIN CEREMONY AT INAUGURATION OF U.S. PRESIDENT

Washington.—Calvin Coolidge at the inauguration ceremony and quietly assumed the duties of President of the United States for four years.

In a brief ceremony, which never deviated from the routine of the inauguration, he was sworn in by Chief Justice Taft, himself a former president. Mr. Coolidge received his oath of office in his grand-mother's hall, and in a short address, he restated his government's policy of frugality.

Thousands of people witnessed the induction of Mr. Coolidge and many men were listened to what he said at their respective seats. His address was to "My Countrymen."

In an unadorned, even tone, the president read from his manuscript steadily until he reached his final declaration that the United States cherishes no purpose "save that to merit the favor of Almighty God."

The chief of office was administered by Chief Justice Taft, himself a former president. Mr. Coolidge received his oath of office in his grand-mother's hall, and in a short address, he restated his government's policy of frugality.

The gain celebration and expensively arranged inauguration ceremony were almost entirely lacking. After the president's address and been concluded, Mr. Coolidge was escorted by trotting cavalry from the capital to the White House, where he was met by his guests in a glass-enclosed revolving stand to witness the passing of the inaugural parade.

Cannery For Winnipeg

Announce Granting of Charter to a Million Dollar Company
Winnipeg.—It was announced that a Dominion charter has been granted to a million dollar company which plans to operate a cannery in the Winnipeg district.

The company, which is known as the Allied British Canners and Distributors, Limited, and it is controlled by a group of 12,100,000 shares. Operations probably will be commenced next fall.

In addition to the Winnipeg plant, the company will establish branches in Quebec and British Columbia, according to present plans.

Would End Lotteries

Ottawa.—L. H. Marshall, of Hants, intends to introduce a bill in the house, which, if adopted, will cut out church lotteries altogether. Under the Criminal Code as it stands, church and charitable institutions may hold lotteries with the permission of the municipal authorities, when the prize does not exceed \$50 value.

National Flag For Canada

Ottawa.—A national flag for Canada is the proposal of A. R. McMeister, Liberal member of the House of Commons for Toronto. Mr. McMeister proposes to move that "the government should take such steps as may result in the creation or choice of a national flag."

GIN PILLS

To Take New Office

L. C. M. S. AMERY who will be known as Secretary of State for Imperial Affairs, after the Colonial office becomes the Department of Imperial Affairs.

London.—The Earl of Oxford and Asquith made his maiden speech in the House of Lords. He cautioned the allies against occupying the Rhine indefinitely, when they had agreed to keep troops there for a limited period. France's feeling of insecurity at present, he said, afforded grounds for a comprehensive international pact. In the interest, not only of French security, but the security of Europe and the whole world. That, he argued, was the most urgent need today.

New Earl of Oxford Makes Maiden Speech

Asquith Cautioned Allies Against Indefinite Occupation of Rhine

London.—The Earl of Oxford and Asquith made his maiden speech in the House of Lords. He cautioned the allies against occupying the Rhine indefinitely, when they had agreed to keep troops there for a limited period. France's feeling of insecurity at present, he said, afforded grounds for a comprehensive international pact. In the interest, not only of French security, but the security of Europe and the whole world. That, he argued, was the most urgent need today.

Canadian Woman War Correspondent Dead

Gifted Writer Accompanied British Forces to Mesopotamia

Vancouver, B.C.—World famous as a woman war correspondent and magazine writer, Edna Franklin Egan is dead, at New York from pneumonia. She was the wife of Mr. Martin Egan, who at one time was on the staff of the "Victoria Times" and later was a correspondent with the British forces in the Mesopotamia campaign and subsequently toured India, and the Far East.

She was a gifted writer and never of her death will cause genuine sorrow in British Columbia.

Using Radio To Spread Propaganda

Daily Programme in Russia Devoted to Political Talks

Moscow.—Soviet Russia has three radio sending stations at Moscow, Leningrad, and Nizhny-Novgorod. These are under the control of the commissariat of posts, telegraphs and telephones.

Each of the daily programme is devoted to talks of a political nature. The Bolsheviks take advantage of the government controlled radio to further their party purposes. There is also the usual broadcast of vocal and instrumental music.

Carry On Good Work

Research Council Gives Aid to Many Activities

Ottawa.—Forty-six research investigations were carried on in 1921, and 19 reports have been made under the auspices of the council for scientific and industrial research, the annual report of which was tabled in the house. During the fiscal year ending March 31, 1922, \$52,629 was granted for research purposes, out of a total vote of \$120,000. Twelve fellowships for students and 21 bursaries were granted by the council, and work was being carried on by 19 university departments in Canada.

U.S. Congress Favors World Court

Washington.—The house passed it overwhelmingly on record in favor of "early adoption" by the United States to the world court "with the reservation recommended by President Harding and President Coolidge." The resolution, which requires continued non-presidential approval, stated the readiness of the house "to participate in the enactment of such legislation."

Powder Explosion Injures Soldiers

London.—Eight enlisted men of the 1st Battalion, Royal Fusiliers, were killed and 12 seriously injured by a burst of a shell in a trench during the attack on the Hindenburg line. The explosion occurred near the front line, and the soldiers were engaged in a trench warfare.

Supervising Credits

Winnipeg.—Six additional rural credit societies with local liabilities of \$22,824, have been placed in the rural credit as administrators. Of these, 21 societies in the province, while approximately \$1,750,000 in standing, are now being administered by the provincial department, it is officially stated.

Singapore Base Will Cost Million Pounds

Singapore.—The cost of the site of the proposed Singapore naval base was \$1,250,000. It was officially stated at the Empire naval conference in session here.

It was added that the acquisition of the site had been completed, and the land was being handed over to the government. The cost of the base was estimated at \$2,500,000 sterling, which was the cost of the base. This is the first naval conference held in the Far East since March, 1921. Much importance is attached to it in view of the defence problems to be discussed in regard to the Pacific.

Will Hold Conference in May

To Discuss Development of Canadian West Indian Trade

Ottawa.—Privately arranged at the Ottawa conference, the holding of a Canadian-West Indies conference in May. The idea will be the negotiation of a new treaty, for the development of reciprocal trade.

Hon. Logan, M.P., who recently visited the West Indies as commissioner of the Canadian Government, reports that everywhere the proposal for a further conference was received with enthusiasm, and that there was a general desire to inaugurate the trade.

Will Terminate Agreement

Western Mines Give Notice to American Mine Workers

Ottawa.—The Western Canadian Coal Operators' Association at a meeting here, decided to give notice to the United Mine Workers of America on March 21 regarding their present agreement on September 30. Since the resumption of operations in October after the strike, the coal mining industry of the province has been badly hit, many of the mines only working one or two days a week. The present cost of production at the mines here, it is stated, has been largely responsible for the great falling off in business.

ONTARIO WANTS TO SECURE COAL FROM ALBERTA

Toronto.—During his address in the legislature, Premier Ferguson spoke at some length on Ontario getting coal from other Canadian provinces.

Even if it meant a deficit for the Ontario Railways, there would be the satisfaction of knowing that the money was being used in the province, and that the coal industry of the province was being helped. He declared that arrangements had been made to bring 100,000 tons of Alberta coal to Ontario on May 1 next, in a short time it was hoped to get Alberta and Nova Scotia coal here as cheaply as United States coal was now being imported.

Assessment Tribunal

New Act May Be Submitted in Alberta Legislature

Edmonton.—To make the taxing of improvements compulsory in all the towns and villages of the province, and to provide for the establishment of a special tribunal to deal with assessments and assessment appeals, are the main objectives of a proposed scheme now being considered by the government. It is likely that a new act, embodying these points, will be presented to the legislature at the present session of the legislature. A special delegation for the Alberta Union of Municipalities was in conference with the government, when the question was discussed at length.

Interrupted Cock Fight

Windsor, Ont.—Three thousand dollars worth of poultry is being held in the basement of the provincial police headquarters here as the result of a raid in Sandwich, when 43 game cocks were seized and the preliminary trial of an old-fashioned cock fight interrupted. About 40 spectators were found in a basement where the cock pit was erected.

Use It Wherever

It is the best remedy for all ailments of the stomach and bowels.

GRAIN FUTURES CASE BEFORE THE PRIVY COUNCIL

London.—The judicial committee of the privy council reserved judgment on the appeal of the Attorney-General of Manitoba as to whether the act providing for the collecting of a tax by the government from the sellers of grain for future delivery was ultra vires of the province of Manitoba.

A special leave of audience granted to the Attorney-General of Manitoba, Hon. W. R. Craig, on his personal application by the judicial committee of the privy council in July, 1921. The Grain Futures Act, passed by the legislature of Manitoba in 1921, provided for the collection of a tax from persons selling grain for future delivery. Objections to the act had originally been raised by the province of Saskatchewan, but the privy council had refused to entertain the appeal.

The privy council had refused to entertain the appeal, but the privy council had refused to entertain the appeal, but the privy council had refused to entertain the appeal.

Bachelors Would Marry

Homeowners in Alberta May Bring Prospective Brides From Old

Edmonton.—Unmarried farmers in the prairie districts in Alberta, are beginning to be interested in the "monotony of single life." At any rate a group of bachelor farmers in the prairie districts in Alberta, are beginning to be interested in the "monotony of single life." At any rate a group of bachelor farmers in the prairie districts in Alberta, are beginning to be interested in the "monotony of single life."

Bovine Tuberculosis

Can Be Eradicated

But Owner Must Be Interested Says Government Official
Ottawa.—Bovine tuberculosis can be eradicated at low cost, provided the owner is interested in eradicating it, and will co-operate with the government, stated Dr. George Hill, veterinary surgeon-general, in addressing the select standing committee on agriculture and colonization of the House of Commons.

Take Tariff Out Of Politics

Windsor, Ont.—Tom Moore, Canadian labor chief, would have the whole Canadian tariff question taken out of the political arena and revised on a scientific basis, as an aid to the present unemployment problem, confronting the Dominion he said. The tariff has been too long a playing for political parties, Mr. Moore intimated.

Eat Maple Apples

Ottawa.—Instead of eating an average of one apple a day, Canadians have pared their ration to four a week, he said, at the annual convention of the Canadian horticultural congress here.

GIN PILLS

FOR THE KIDNEYS

Great Britain Can Provide An Excellent Market For Our Export Bacon Trade

Every farmer in Canada is interested in his twenty million dollar bacon trade. While making bacon, the production and preparation for export we could expand our trade to a value of fifty million dollars every year.

It is agreed that a satisfactory market for our meat is essential to the profitable production of any commodity. When there is a market open up there is some one willing to supply it and someone else, that market is a profitable one, the competition becomes so keen that certain sources of supply are bound to be eliminated.

The farmers of Canada engage in the production of hogs in various quantities in different sections of the country. The type of farming, feeds available and market conditions determine in what extent hogs are produced. This production is in excess of the purposes of supplying pork and pork products to our own people; in other words the domestic market. And a great many factors help to determine what this domestic market will say for long. High priced feed, a country of hogs can produce more hogs than the domestic market can absorb. The hogs are usually associated with high markets. On the other hand, an overproduction of hogs and unemployment tend to lower market prices. Our production as viewed from the standpoint of consumption is always greater than we can possibly use. Therefore, we must have a market for the surplus and it is the opinion of a great many of the hog producers and packers in the country that the sort of hog produced should meet the requirements of our export trade.

Our export market for pork products is Great Britain. She is our best customer and, because of this, we must pay due attention to her requirements if we want to remain in the business. British requirements are these: A bacon in the form of a Wilshire side. This side is preferred between the weights of 55 to 65 lbs. The side is cut from the front of the hog, although hogs of the proper type and flesh weighing from 160-200 lbs. at maturity produce good Wilshire sides which are acceptable as to weight. The Wilshire side must not only be within certain limits but it must be well, distinctive in make and shape. It must not be too much like a V in the middle and is too narrow. However, we do not want thin, unfinished Wilshires. In other words, from the standpoint of type, conformation, weight and finishing, the requirements are met by what we have come to term a "select ham." England wants a ham which is well supplied and looks like it has a very mild cure. As regards this last requirement, the responsibility for the fulfillment rests at that present time with the packer.

Grading System Unsatisfactory

Present System of Hog Grading is Not Satisfactory
There was a great amount of dissatisfaction expressed at the present system of hog grading at the annual meeting of the Western Livestock Producers' Association held recently in Winnipeg.

It was the unanimous opinion of those present that some alteration in the system should take place, as many of the members pointed out that results had not come up to expectation. It was also agreed that the grading system now in vogue had been responsible for an increase in the number of premium hogs.

The lifting of veterinary certificates on export cattle from Saskatchewan for sale on the Winnipeg market, was also recommended and a resolution was passed that the association take up the matter forthwith at Ottawa with Dr. G. Hill, the veterinary director-general.

A Golf Ball's Speed

When a golf driver from the top is probably little realizes the terrific speed at which he has sent the "iron ball" on its travels. He would probably be astonished to learn that he has imparted to it a speed more than twice as great as an express train, and considerably greater than that of any kind that runs—Winnipeg Tribune.

Alberta Settles Bonds

The best price realized by the Government of Alberta for an issue of provincial bonds, since before the war, was paid recently, when a \$10,000,000 highway bonds, 15 years, 6 per cent, was sold to a Toronto financial house at 98.55, yielding 5.955 per cent. There were seven tenders for the bonds.

Eighty-five per cent. of the people who are here are expected on the left side.

W. S. U. 1927

Returned To Canada

Farming Opportunities Are Much Greater In This New Country

The Canadian Government Migration agents come directly into contact with farm settlers returning to Canada from the United States and consequently receive much inside knowledge of conditions of the two countries as they relate to agriculture. While some returning settlers naturally prefer to keep their own council others are quite frank in discussing their experiences and the causes which have led them to return to Canada. One example out of several occurring recently is quoted hereunder:

Twenty-one years ago Tony Hildemann, of New Kim, Minn., came to Canada, and after working for Puley Brothers, railway and general contractor in Western Canada, bought some farm land near Moose Jaw, Sask., on which he made a good living, but not a great deal of money. Hearing of the growing acreage of the prairie in the United States he decided to leave Canada and find his farm at a distance in Iowa. He went to Montana, but he did not find much prosperity there among the farmers and could obtain no work. He then went to Minnesota and found that there was a general feeling of discontent. He and his wife, therefore, decided before what little money they had left was gone, to return to Canada and stay for the rest of their lives.

Mr. Hildemann decided that in their poorest days in Canada they always had enough to eat, sufficient clothes to wear, plenty of good friends and good schools for the children, etc.

Horses In The West

Stock Raisers Now Breeding Better Class of Horses

A delegate to one of the annual meetings of the livestock associations, recently held at Toronto, stated that there were now so many horses in the northwest that there was no longer any market there for the east. How much has been done and what results that section of the country with the right animals is illustrated by the report of an inspection made at the Star Head, Sask., experimental farm. Here it is noted that with the help of the livestock branch, which held one-third of the service, farmers have been enabled to raise Cheshires that are of prize at local and provincial shows while one bred at the farm itself won first in the yearling class and junior championship at an international exhibition in Chicago.

Flour Mill Production

Eighty-nine million bushels of wheat were ground in Canadian mills last year, or about 5,600,000 more than in 1925. This produced 19,225,000 barrels of flour, or 372,000 more than in 1925. Wheat flour exported during the year amounted to 11,475,000 barrels, as compared with 11,125,000 in the preceding year.

The average weight of a flour is 56 pounds.

Fortune tellers get a share of your fortune for telling it.

'Real Man's Country'

Story of a British Emigrant Who Made Good

Frank Day, of Glenora, Saskatchewan, who came to Canada from England over 20 years ago, believes that the Dominion is a land of opportunity for men willing to work hard. In a letter from him published recently in the Manitoba Free Press, he says in part:

"There may be among the ranks of the unemployed some men who are sincerely looking for work, and perhaps somewhat discouraged with the prospects for the future. To these men I would say: Be of good cheer and keep away from the ranks of those who are blaming others but themselves for their present position. I am sure there is a place in this great empire for all who are truly worthy of a position.

"I have been over twenty years in the west and never yet had to go on the dole for a meal. I have worked at nearly all the so-called low-down jobs—pick and shovel, digging in round houses, mining, snow clearing, to find anything in the line of work. The result? From a weakling I developed into a real man."

"Today I am a man who can do my own work and with the other fellow. I truly ought to give satisfaction to my employers."

"I own a farm three quarter sections of land. I still have traces of discouragement. We had four dry years and two years the crop was held out."

"This is some game. A cup final has nothing on this when you are called on to meet the entire football world with the goal at the same time for fourteen hours a day, minus the applause. It keeps one fit."

"The eight-hour day simply won't work on the farm. I will admit there are some not fitted for farm work, but they will be few if a man takes an interest in the job."

"The champion wheat growers of the west came out of ship and factory. They put green men had the pluck and dogged determination to make good."

"This opportunity is still open. There is a real man's country, but it takes a real man to play the game. My hardest job was to get M. But I am glad to have the goal for one side—the victor's side."

Will Help Settlers United For Farming Empire Community Settlement Has Been Organized In England

To facilitate co-operation in emigration among retired professional classes with small fixed incomes, the Empire community settlement has been organized in England to care for retired military officers, civil servants, engineers and other professional men unfit to go to the dominions as agricultural settlers in the ordinary way.

It is proposed to establish them overseas on model farms, providing the garden estate, with two to five acres, dwelling, stable and outbuildings, and club houses where meals may be obtained at a low rate. After five years of this life the settlers would be expected to find a permanent place in the dominions.

England sends annually 150,000,000 worth of its unemployed.

Forestry Expert Gives Some Valuable Advice On Methods Of Tree Planting In The West

Canadian Bacon Awarded Prize

Made By British Daily Farmers' Show To Toronto Firm

The prime minister, in the presence of Hon. W. H. McCreery, minister of agriculture, presented Prime Minister John A. Gann, of Ginn's Ltd., Toronto, with medals awarded Ginn, Ltd., for bacon at the British Daily Farmers' show, recently held in London, Eng. The medals were forwarded direct to the prime minister by the Canadian high commissioner.

Canada is the first country since the inception of the daily show in 1916 to secure first prize with a perfect score. This victory has been the means of creating a growing interest for Canadian bacon on the British market, which is being reflected in the highest prices being paid for select hogs.

Premier King, in presenting the medals to Ginn, expressed his admiration upon the success of the Canadian exhibit, but remarked that the country was more to be congratulated on success of this nature generally by increased the standard and market for Canadian products in their English market in competition with the whole world.

Butter and Cheese Exports

Heavier Exports From Canada of Both Butter and Cheese

By the News Letter of St. John's, Nfld., it is stated that during 1926, 22,342,362 lbs. of butter valued at \$8,600,512, were exported from Canada compared with 15,173,711 lbs. valued at \$4,985,469 in 1925; also that 1,516,656 lbs. of cheese valued at \$225,757.78 were exported during 1926 compared with 1,162,900 lbs. valued at \$27,410.91 in 1925. It will be seen that exports of butter last year exceeded those of the year before by 3,170,651 lbs. and of cheese by 3,529,700 lbs. About thirty per cent. of the butter in 1926 and 80 per cent. of the cheese were exported to United Kingdom. Nearly twenty per cent. of the butter went to the United States, or 4,515,312 lbs., over 18 per cent. to Germany, and 25,000 lbs. to Panama.

Secure Country Elevators

Saskatchewan Wheat Pool Makes Arrangements to Control Elevators

At Certain Points
Recommending that the surplus handling charge funds available from this year's pool wheat be utilized in securing country elevators at the heaviest contrast shipping points, the directors of the Saskatchewan Wheat pool in Regina, endorsed the elevator policy proposed by the board of directors.

The directors further urged the directors to establish the "cheapest possible measure of co-operation with the year's pool wheat in the country with a view to bringing about complete unanimity at the earliest possible moment."

The directors were also authorized to proceed at once with the organization of a co-operative grain pool and arrangements in connection with the local sales were left in the hands of the local committees.

Butter Output Increases

Saskatchewan Farmers Are Evidently Drifting Into Diversification

Production of creamery butter in Saskatchewan during January, 1927, totalled 690,369 pounds, as compared with 476,525 pounds in the same month a year ago, an increase of 214,286 pounds or 45 per cent. Every creamery in the province had an increase in production during the month. Central Saskatchewan produced 309,235 pounds during the month against 167,648 pounds a year ago, or an increase of 141,587 per cent. The southern section of the province produced 231,365 pounds, compared with 198,310 pounds the same month last year, an increase of 33,055 pounds or 16.6 per cent. The northern section of the province produced 129,469 pounds against 110,565 pounds in 1926.

The Cat Was Particular

Mrs. Key was visiting some friends, and left the following notes for her neighbor.

"Dear Mrs. Garrison—Would you please put out a little food for the cat. I have been feeling this winter? It will eat almost anything, but do not put yourself out."

To generate electricity without using coal, a Minneapolis inventor has built a windmill that charges storage batteries.

The Woolworth Building in New York, which tower 792 feet, is the highest building in the world.

By Archibald Mitchell, Western Lecturer, Canadian Forestry

Planting the roots is an ancient and all-important practice in tree planting that is often more honored in the breach than in the observance, and it is well to remember that just as soon as the bare of trees arrives from the nursery it should be opened out and the roots dipped in a thick puddle of mud and water. This keeps them moist and in good condition till they are planted in their permanent situation. The puddle can be made in a hole in the ground or in a gull. If it is not convenient to plant the tree right away, for a day or two, they should be puddled and heeled in the ground till they can be planted. Heeling is a simple matter. A trench is opened large enough to hold the roots comfortably. It should also be deep enough—two feet is a fair size. The roots of the puddled plants are laid in this slaty, but close together and covered well with soil, which should be kept fairly close about the roots, a most important matter in a dry country. Many plants get their death sentences from faulty heeling.

Written in this way they will keep for a week or two. At planting time they should be pulled apart as they are taken from the trench. The hole should be larger than the spread of the roots, and deep enough for the tree to be about two inches deeper than it was before heeling. Spread the roots out comfortably. If necessary, cut the roots to fit them for the bottom of the hole. As the earth is thrown in, the tree should be shaken up and down in the hole to allow the fine soil particles to settle closely round the fine roots. When it is about two-thirds full, tramp it down, then fill the hole to the hole level with the ground, and tramp it down, leaving a shallow basin about two inches deep around the tree. Fill this full of water and allow it to soak away. After the second soaking, throw the rest of the soil and have it close on the surface. If the ground is very dry, a third watering may be given, but it should be observed by (mopping) of the ground. Fill the hole

"A little common sense goes a long way in the planting of trees. Trust that the living things should be taken after themselves. Study their requirements a little before you plant, and there should be no difficulty about the planting if they are alive."

More Brown Bread Eaten

English Are Becoming a Nation of Wholemeal Bread Eaters

The English are becoming a nation of wholemeal bread eaters. "Since the outbreak of the war, more than a year ago, by the eminent surgeon, Sir William Arbuthnot Lane, that white bread is not only unhealthy but a cancer, the bakers of England have noticed a great decrease in the sale of white bread and an increase in the consumption of wholemeal products."

This change in the national appetite has become so widespread that the Bakers' Association has issued pamphlets and pamphlets regarding the wholemeal diet, and urging its wider use.

Specific figures of one of the largest bakeries in London show the sale of wholemeal loaves during December to be almost three times that of the previous December.

Last year some of the English millers inflicted machines to bleach the wholemeal flour, but even this is no longer necessary, for there is no real stigma attached to brown bread these days.

From Bad to Worse

At a concert a man turned to the occupant of the next seat and remarked:

"What a wretched song that girl is singing."

"Do you think so?" said the stranger coldly.

"It—what I mean is that it would be an excellent song if only the girl could sing."

An Advance

According to Professor John Huxley, after they are married, the women can do anything. Of course, with more civilized creatures the has hand only gets pecked—London Sun-Mirror.

The city may have the farmer, but the farmer can get square by taking summer holidays.

All things come to an end, but it is first necessary to start something.

Husky Dog-Sled Champion

Don't let Godard, driver of the winning team in the Eastern International Dog-Sled Derby at Quebec, with "Yukon," his best dog, winner of the derby trophy donated by Mrs. Edward T. Clark, of Sheepshead Bay, N.Y., in commemoration of the lead dog in the team which carried supplies over the ice in the face of heavy odds and abnormally severe weather conditions. "Yukon" was considered the best representative of the husky breed entered in the Quebec race.

Constructing Speedy Sealions

A British engineer, which will run a speed of five miles a minute is being constructed for the next Schneider Cup race, and will be ready for trial shortly. It is understood to be London. The machine will be streamlined from end to end and the engine will be left to the fuselage.

The average size hen egg weighs about 24 ounces to the dozen.

The United Pacific Railroad crosses nine mountain ranges.

There are said to be 3,415 languages and dialects in the world.

Autos For Prince's
South African Tour

Seven Seated Cars For Use In Nigeria

As Painted Standard

For the Prince's use during his South African tour his handsome touring cars are being sent out five for the staff and one for himself. All are of 25-30 h.p., and they will be in charge of Mr. F. J. Small, who drove the Prince during his travels in India, Australia, and Japan. The Prince's own car, which Mr. Small will drive, is a five-seater, painted royal blue and upholstered in blue leather, with the Prince of Wales' crest on the doors and the three feathers in metal on the front of the car. For His Royal Highness's visit to Nigeria a large seven-seater touring car, painted bright red, is being sent out. On the car will be prominently displayed the Royal Highness's crest, at the back and on the doors. Royal has been selected in preference to the Prince of Wales being more impressive from the point of view of the West African natives.

BABY'S OWN TABLETS
ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else and as long as there are babies in the house "you will always have a box of Baby's Own Tablets on hand." The thousands of mothers have become convinced through the actual experience of their own babies that nothing is equal to them in banishing constipation and indigestion; breaking up the single fever; expelling the worms and promoting that beautiful complexion which is the mark of the welfare of little ones. Among the Baby's Own Tablets, who make the house as I know of no other medicine. I have kept Baby's Own Tablets in the house as I know of no other medicine. I have kept Baby's Own Tablets in the house as I know of no other medicine. I have kept Baby's Own Tablets in the house as I know of no other medicine.

Prize Winning Recipe
For Mornay Sauce

Montreal Lady Wins First Prize in Borden Recipe Club Contest
Miss Anita Davis, Montreal, has just been awarded her success in winning first prize in the 1924 Borden Recipe Club contest. This club, which is an international in membership, has such a contest each year open to all members, of whom there are approximately two hundred members. The contest essayed a sauce recipe, the plan of the contest being for each contestant to compete in the classification in which she feels she excels. Her recipe follows:

Mornay Sauce—International Prize
1 cup butter, 1/2 cup flour, 1 tea-spoonful minced onion, 1/2 tea-spoonful thyme, 1/2 cup leaf, 1/2 tea-spoonful salt, 1 tea-spoonful white pepper, 1/2 cup cayenne, 3 egg yolks, 1 cup white stock, 1 cup Borden's Evaporated Milk, 1/2 cup grated Parmesan cheese, 1/2 cup grated Parmesan cheese.

In the top of a double boiler, mix one-fourth cup butter; add onion and stock; beat until smooth. Combine milk and egg yolks. Beat until thick and add the rest of the ingredients. Beat until thick and add the rest of the ingredients. Beat until thick and add the rest of the ingredients.

When a mother detects from the writhings and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

Where Men Are Scarce
The stamping ground for Cupid in England should be Sussex county. In Sussex there are more women proportionately than in any county in England, the women numbering 1,774 to every 1,000 men.

In Sussex there are more women proportionately than in any county in England, the women numbering 1,774 to every 1,000 men.

A Giant Driftlog
Plans to Build Airship Twice Size of Los Angeles

The Goddard Company of America is planning the construction of a dirigible twice the size of the Los Angeles to establish a New York-London passenger service. It is reported that Dr. Karl Arstein, former chief of construction at the Zeppelin plant, is said to have received an offer from the company to build the ship. The ship would have motors generating 4,000 horsepower.

Finda Holland Did
The ex-Lakeland and his new wife have recently been to inspect the German crown jewels, which remain intact and were sent to Holland to repose in the vaults of a great bank during the war. William's second wife is very anxious to see these little jewels as Emperor.

She is fed up by the dullness of the little bit country of canals, and the expedition is to admire the jewels was undertaken to mollify her.

Design New Dirigible
Making Airships Faster and More Adaptable For Long Distance

Innovation in dirigible designs, making the airships faster and safer and more suitable for long distance flights, have been submitted to the British Government, says the Press Association.

It quotes experts as saying it would be possible with the new designs to make the journey to New Zealand in nine days.

The new designs, it is explained, eliminate the gondolas with the exception of those carrying the motors, thus reducing resistance. They provide space for the pilot and navigating room in the ship's skeleton. This is declared to insure a considerable increase in the range of the flight as proved by experiments carried on by the national physical laboratory.

The new type of dirigible is credited to Commander C. B. Bruner, Member of Parliament, director of the Airship Guarantee Company, which the Macdonald Government placed an order for a ship of 6,000 cubic feet capacity, and to Chief Designer H. N. Wallis, who worked out a new type of dirigible.

The new mail is described as having enormous arms, extending horizontally, into which the ship's nose was pushed, and also along which these arms the passengers who are carried by an elevator, pass over a gangway to the dirigible's interior.

Here and There

In conjunction with the further loan of \$3,000,000 for colonization to be authorized by the Quebec legislature this season, it is also intended to raise the bounty to settlers on the acreage cleared. At present the government gives a bonus of \$6 an acre. It will be raised to \$8 an acre. The province spent \$30,000 in this way in the last fiscal year.

The amount of butter exported to Japan through Vancouver during 1924 was nearly twice that of 1923, according to figures supplied by Japanese consulates at that point. The report shows that in 1924 the quantity was 478,456 pounds, as compared with only 239,595 pounds in 1923. Total cheese shipments to the same destination last year amounted to 2,685 pounds, as against only 40 in 1923.

A recent analysis of immigration according to occupation of immigrants arriving in Canada since 1920 shows a steady increase in the ratio of agriculturists and domestic towards all others. In 1921 the figure was 35 per cent. It was 44 per cent for the fiscal year ending March 31, 1922, 47 per cent for the fiscal year 1922-24 and 51 per cent for the nine months April to December, 1924.

One of the outstanding features of the Grain Commission Board's report for the season 1923-24, was the tribute paid to the excellent service rendered by the Canadian Pacific Railway in handling the western crop. Though the company handled 101,300 cars of grain, it received only six complaints about lack of cars from the railway and commission combined. In 1923-24, with an even larger number handled, there were only eight complaints.

He tried to cross the railroad track. Before the rushing train: They put one piece in a sack, But couldn't find the brain!

One hundred British farm families are due to reach British Columbia early next spring. These are the fore-runners of 3,000 families that are to come out to settle in Canada on the land. Provincial and British Government assistance is being given them to get started.

A remarkable statue modelled entirely in ice is to be seen at Quebec. It represents one of the latest or 2380-type locomotives of the Canadian Pacific Railway, about one-fourth full size and is perfect in every detail. Ice sculpture has been brought to a fine art in the Ancient Capital.

Skaters from New York, Boston, Montreal, Toronto and Ottawa will compete with Quebec champions in a great international amateur figure skating contest, to be held in Quebec city February 23-24, for handsome trophies and medals donated by the Frontenac Winter Sports Clubs. A record attendance of spectators is expected.

Stirling parties over the week-end are being conducted by the Laurentian Winter Club in different points in the Laurentian Mountains, the team being superintended by a competent skier. To those remaining in Montreal the big six-chute toboggan slide on Mount Royal has an added attraction in toboggan races every Saturday, winners receiving prizes.

That Canada is on the verge of a trade boom which may last until the end of this year was the statement made in Toronto recently by Richard Conway, Vice-President of the Brookings Forecasting Service of New York. The main factor responsible for the upswing of Canadian business, he said, is the opening of the foreign markets to the grains of the west year.

Orchestra from the Canadian Pacific steamships "Empress of France" and "Empress of Scotland", when they arrived recently at New York and before sailing or their round the world and Mediterranean cruises which the company starts annually from that port broadcasted through WJZ a forty-five minute programme of selected Scott, English, Welsh, Irish and Canadian airs, while the "Montroyal" on her return from the company's cruise to the West Indies, broadcasted British and Spanish music through WJY of New York.

Information furnished by J. Frank Callbreath, packing contractor and general merchant, shows that during the 1924 hunting season, parties secured 12 moose, 25 caribou, 25 goats, 21 sheep, 15 black bear and 11 grizzlies in the Telegraph Creek district of British Columbia. Of the caribou, the largest, shot by J. J. Sartori, of Brooklyn, N.Y., has a spread of 47 inches, is 39½ inches long and has 27 points. The largest sheep horns were 4½ inches long, with a spread of 31 inches, and were secured by A. D. Stewart, of New York.

The third annual Eastern International Dog sled derby, run off at Quebec on February 19, 20 and 21, was a tremendous success. Twenty-two mushers and their teams from many parts of Canada and the United States competed over the 120-mile course, the race being won by Emil St. Godard, of Le Pas, Man., who also won the 21st day's lap was run through a blinding snowstorm, which gave the thousands of sports visitors from Canada and the United States who witnessed it, a vivid impression of normal conditions experienced by the mushers.

Say you saw it in the News.

About Town and Country

Pay your taxes.

The Ladies Altar Society, of the Sacred Heart Church will hold a whist drive on Tuesday evening, March 17, commencing at 8 p.m. Supper served. Admission 50 cents.

Another Rabbit Drive at Peck's Is Well Attended

Saturday afternoon saw another rabbit drive staged at Peck's farm, where in the neighborhood of 150 adults and school children attended. About a hundred rabbits were destroyed.

From accounts of those who attended, rabbit drives are proving just as popular as cross word puzzles, and the furry pests are due for numerous parties before seeding time comes round.

Mrs. M. G. Whitlock Wins Challenge and Mrs. R. Sanders Wins Consolation

The final games in the ladies'spiel were played off last Wednesday evening, when Mrs. Whitlock's risk caused her to win the Challenge, defeating Mrs. T. W. Johnston with a fairly comfortable margin. In the Consolation series, Mrs. Roy Sanders defeated Mrs. F. Lake.

Expect To Resume Drilling This Week

It is expected that drilling will be resumed at the Fuego Oil Company's well this week. A considerable quantity of coal and supplies have been taken to the site during the past two months, and unless something unforeseen occurs it is anticipated that drilling will be carried on continuously after a start is made.

EXCEL ITEMS

Mr. Morris gave a talk on "Egypt's Largest Pyramids" at Farming Valley School last night. This lecture was based on Mr. Morris' own experience.

Mrs. Sutherland, U.F.A. director, and Mr. Allison will speak at Excel School tomorrow evening and at Fairfairs on Friday afternoon.

Times ain't what they used to be. This was proven last Friday when a Lanfine sport started at Oyen with a four-horse team to gather members of the fair sex to attend the pie social and dance at Lanfine. In spite of his best efforts at Oyen and enroute, he landed at the hall with only three. Heigh ho!

T. Swindlehurst, Jr., was a week-end visitor over the young and.

Don't forget the big dance at Excel on Friday the Thirteenth.

In Lighter Vein

A press dispatch says the cross-word puzzle is now being used as a means for the amusement of inmates, notes the local rag. We have not spent more than ten minutes on one of the things since the craze started but have no doubt that a week of such mental gymnastics would add a new facet to the asylum bunch.

One touch of scandal makes the whole world chin.

Many a man can avoid a sore throat by keeping his mouth closed.

At the Elevators.
